BEHNTI™ SEATING

Overview

Planning

Statement of Line	➤ See page BE.2
Overview	BE.3
Pricing	BE.4
Surface Materials	BE.6

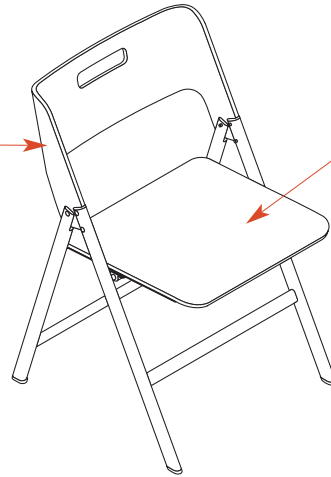

Behnti folding chairs provide additional seating as needed or can be stored away when not in use.

Elegant curved back is designed for greater comfort.

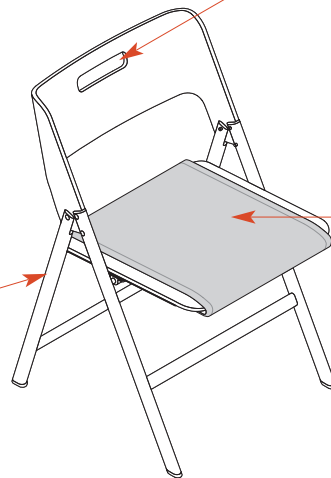

Behnti can be conveniently stored on a wall-mount bracket and easily accessed when needed. Wall-mount bracket should be mounted at 28³/₈" from the floor so that the legs can rest against the wall's cove molding.

Leg frame is steel and available with a black powdercoat or covered with matching, thermally fused woodgrain pattern.

Seat and back are constructed with a molded plywood core covered with HPL. Ply edges have a clear coat finish for added design detail.

Convenience handle allows for ease when hanging and removing the chair from a wall-mount bracket.

Seat pads, specified separately, are optional for added comfort. They are available in all in-line and graded-in Alliance fabrics. They can be easily removed and replaced if needed. Seat pad wraps around the front and back edges of the seat, and is secured using straps that slide through plastic loops and held in place with Velcro attachment.

Chairs, chair pads, and wall-mount brackets are sold in sets of 2.

Weight rated to 400 lbs.
Not intended for 24/7 or bariatric use.

Behnti chair colors are similar to and compatible with Interwoven laminates:

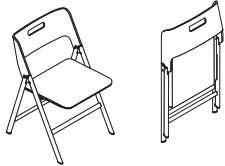

- Light Grey is compatible with Storm (460)
- Dark Grey is compatible with Graphite (461)
- Natural is compatible with Porcini (PC)
- Walnut is compatible with Sable (792)

In-Line Leather

Price Grades L7 and L8

▶ See Surface Materials at www.interwovenhealth.com for the most up-to-date list of available seating leather.

Alliance Program Fabric

Price Grades A–T

▶ See Surface Materials at www.interwovenhealth.com for a wide variety of graded-in fabrics from Arc-Com, Carnegie, CF Stinson, Designtex, Maharam, Mayer Fabrics, Momentum, and Ultrafabrics.

▶ Contact Customer Service for pricing for grades S and T.

▶ See the *Surface Materials* chapter for a complete overview of the Interwoven materials program, including:

- Characteristics of wood
- Customer-specified laminate (CSL)
- Solid surface program
- Alliance fabric program
- In-line fabric program
- Customer's own material (COM)
- TB133 process

Interwoven has analyzed each model to most accurately reflect the COM yardage requirements shown on the pricing pages. The yardage requirement for each model is based on 54"W fabric and cutting the fabric up the roll.

For COM widths other than 54", increase the yardage requirement by the factors below:

<i>Fabric width</i>	<i>Increase yardage</i>
50"–53"	15%
48"–49"	30%
45"–47"	45%

If repeat is larger than 18", contact Customer Service to confirm the correct amount of yardage required.

When ordering 10 or more chairs in the same COM, yardage requirements may be reduced.

▶ Contact Customer Service.
